

Introduction to Tier 3: A Systems Approach

Jen Fletcher
BSS/Mountain Region
everhartj@marshall.edu

1

Today's Objectives

- ✓ Tier 3 Systems
 - District
 - School
 - Individual
- ✓ Barriers
 - Explore ways to address through training, coaching, and TA
- ✓ Intro to Tier 3 TFI 3.0
 - Understanding the TFI Features

5

2

Audience Expectations

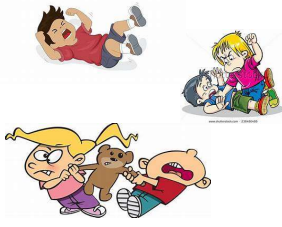

- **Be Respectful**
 - Limit Distractions for yourself & your trainer
- **Be engaged**
 - Ask questions
 - Provide eye contact
- **Be Responsible**
 - Take notes
 - Complete surveys when prompted

3

MARSHALL

That "Student"

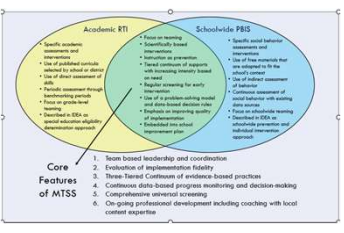

- Describe that student: single words (don't overthink)
- What interventions have been attempted?
- How long did you implement the intervention?
- Have interventions been successful?
- Why do you think the student behaves the way he/she does?

4

MARSHALL

FBA/BIP: Apart of a bigger system

One way that district and schools can meet the needs of all students who require individualized behavior support, while maximizing the efficient use of valuable time and resources, is by developing and providing a continuum of Tier 3 supports and defining FBA/BSP as a process that can vary in complexity based on student need.

Academic RTI

- Focus on reading
- Scientifically based interventions
- Instruction as prevention
- Small numbers of students
- High quality research based on reading research
- Multiple supports for study
- Instruction
- Use of a practice-utility model and data-based decision rules
- Progress on meeting specific goals
- Embedded into school improvement plan

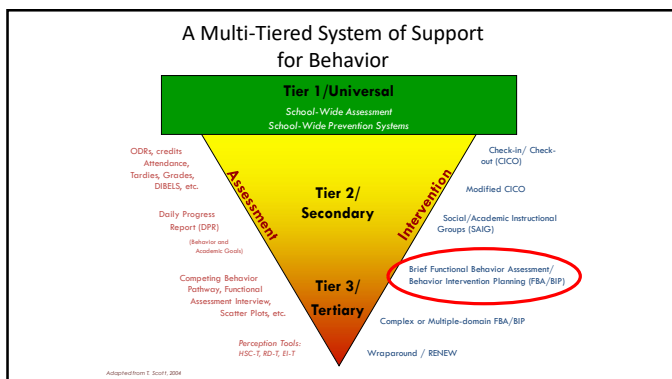

Schoolwide PBS

- Specific social behavior assessments and interventions
- Use of few strategies that are centered to the school's context
- One of different components of behavior
- Continuous assessment of social behavior with existing data sources
- Based on evidence-based research
- Embedded into school-wide prevention and individual intervention approach

Core Features of MTSS

1. Team based leadership and coordination
2. Evaluation of implementation fidelity
3. Three-Tiered Continuum of evidence-based practices
4. Continuous data-based progress monitoring and decision making
5. Comprehensive universal screening
6. On-going professional development including coaching with local content expertise

5

6

What are Tier 3 Supports?

A layer of support in addition to those provided in Tiers 1 and 2.

Individualized supports for both general education and exceptional education students.

Focus is on what is needed to achieve positive outcomes (brief, comprehensive, or wraparound).

PBIS Positive Behavioral Interventions and Supports

7

Tier 1 + Tier 2 + Tier 3

Tier 1 + Tier 2

Tier 1

MARSHALL

8

Tier 3 System
What we know nationally

1. Effective evidence-based processes exist to support students with serious problem behaviors
2. Overall, those processes are not implemented with fidelity
3. Improved student outcomes not being realized
4. An ineffective Tier 3 system may impact:
 - Restraint/Seclusion
 - Suspensions/Expulsions
 - Disproportionate Discipline
 - Drop out/Graduation Rates
5. Systemic issues impact Tier 3 supports (District/County level)

PBIS Positive Behavioral Interventions and Supports

Supporting Tier 3 Across Districts, Schools and Individuals

District	<ul style="list-style-type: none"> • Effective multi-disciplinary team • Needs-driven professional development • Consistent coaching available to support school teams • Data system to evaluate effectiveness • Policy alignment for Tier 3 supports • Collaboration with stakeholders
School	<ul style="list-style-type: none"> • Teams that support, coordinate, and evaluate process • Ability to provide a continuum of supports for Tier 3 • Train and coach staff or teams as needed • Evaluate success • Collaboration with stakeholders
Student	<ul style="list-style-type: none"> • Assessment • Behavior Intervention Planning • Training/Coaching • Evaluation

11

Tier 3 Systems Blueprint

A Blueprint for Tier 3 Implementation:

A Results-Driven System for Supporting Students with Serious Problem Behaviors

Division of Exceptional Education and Student Services
March 27, 2024

<http://www.fldoe.org/academics/exceptional-student-edu/>

12

District-Level Systems

Effective multi-disciplinary **teaming** process

Needs-driven **professional development**

Reliable and consistent **coaching** network

Efficient data system for **evaluation** of effectiveness

Protocols for collaboratively **engaging with stakeholders**

Alignment of **policy**, procedures, and practices for effective Tier 3 for all students

13

Assessing District-Level Needs

The 3 Initial District Inventory

District	Date	Interviewer	Name/Title of Interviewees
District Team Staff Responsible for Tier 3			
1. Does the district have a team for the purposes of planning, evaluating, and revising the Tier 3 individual assessment process? (see rubric page 6) (Yes, No, or in process) (Rating: 1-3, district self-rated)			
2. What are the names and roles of the people on the district team? Who is the district team leader/coordinator?			
3. Who on the district team has training and expertise in behavioral principles? When and how did they receive that training (e.g., job-specific, experience, professional development, graduate work)? (Rating: 1-3, district self-rated)			
4. Does the district team include individuals who have the knowledge and skills necessary to facilitate systemic change? How do the individuals use their skills to reduce the likelihood that change will occur? Include activities that have expertise in implementation science and problem-solving domains regarding implementation and knowledge of how adults change behavior. (Rating: 1-3, district self-rated)			
5. Which member of the district team coaches FBA and develops BIP? Are other people identified responsible for conducting FBA and developing BIP? If yes, what are their names and roles? What is their training and expertise in behavioral principles? (Rating: 1-3, district self-rated)			
6. How much time do the people identified above expect to devote to conducting the FBA/BIP process? Is the time allocated sufficient? (Rating: 1-3, district self-rated)			

- **District Process**
 - Alignment of policy, procedures, and practices for effective Tier 3 for all students
 - Coaching & Professional Development Needs
 - Evaluation effectiveness
- **Campus/School-based Process**
 - Process for FBA/BIP
 - Training/Coaching supports for BIP
 - Evaluation of BIP

14

Supporting Districts Tier 3 Priorities

9. District allocates sufficient training & technical assistance to support tier 3 implementation activities (e.g., intervention design, delivery, data-based decision making, etc.)	Fully In Place	Partially In Place	Not In Place	Rating/Notes
a. District ensures sufficient training and coaching for implementation of FBA/BIP	District has taken steps to ensure sufficient training and coaching for implementation of FBA/BIP		District has not taken steps to ensure sufficient training and coaching for implementation of FBA/BIP	
b. District provides training and technical assistance regarding collaboration and skills related to collaboration	District has implemented a plan for training and technical assistance regarding collaboration and skills related to collaboration		District does not have a plan in place for training and technical assistance regarding collaboration and skills related to collaboration	
c. District ensures that data is utilized to identify and differentiate skill vs. performance deficits	District has implemented measures to ensure that data is utilized to identify and differentiate skill vs. performance deficits		District has not implemented measures to ensure that data is utilized to identify and differentiate skill vs. performance deficits

 Tier 3 Action Plans
<https://www.livebinders.com/media/get/MIM2MTcOTA=>

15

Questions to Consider for District Planning to Support FBA/BIPs

Why is the quality of most FBA/BIPs poor?

How can districts enhance the technical adequacy of FBAs/BIPs?

What is needed to support districts in implementing evidence-based processes?

How can districts ensure an effective FBA/BIP process is in place?

How can districts ensure all students needing T3 supports are included, not just students with externalizing behavior problems?

16

Technical Adequacy Tool for Evaluation (TATE)

1. User-friendly tool for practitioners in school settings to evaluate FBA/BIPs

2. Determine the technical adequacy of FBA/BIPs & establish baseline

- Districts/Schools
- Staff
- Individual students

3. Provide information and generate data to guide district tier 3 planning and professional development

<https://www.livebinders.com/media/get/MTC3OTQ2NDM=>

9. Function of behavior is one identified in research literature, provides specificity, and is linked to FBA state.

Positive reinforcement—To get/obtain (attention, tangible, sensory stimulation) _____

Negative reinforcement—To escape/avoid/delay (tasks, attention, tangibles, pain/undesired/irritant) _____

Multiple functions (positive and negative reinforcement) _____

8. If no function identified, OR no hypothesis, OR function not in research literature

1 = function identified in research literature, not listed to FBA data.

2 = function identified in research literature, AND listed

FUNCTIONAL BEHAVIOR ASSESSMENT SCORE /18

16. A specific plan for collecting fidelity data on BIP implementation is included.

When/How often Who Method Review date

0 = no plan, OR unable to determine

1 = partial plan, lacks details

2 = plan fully described

BEHAVIOR INTERVENTION PLAN TOTAL SCORE /18

Feature	Score Obtained	Score Possible	Percent Obtained
1. Functional Behavior Assessment		18	
2. Behavior Intervention Plan		18	
Total Product Score		36	

17

Questions to Consider with District Data Systems to Support Tier 3

- Identifies students needing T3 supports?
- Provides baseline (pre-intervention) data for all students identified to receive T3 supports?
- Provides post-intervention data to monitor how students are doing after intervention implementation?
- Tracks specific problem & replacement behaviors?
- Identifies & tracks specific interventions being implemented?
- Drills down by students in specific schools, grade-levels, categories, classrooms, & behaviors?
- Provides fidelity data?

Are any of these challenges for your district's data system? If so, which one(s)?

18

Data Systems for Evaluating Effectiveness

To effectively implement Tier 3, a district must have a functional data system to review data at multiple levels (e.g., student, teacher, school, district) across all tiers.

Tier 1	Tier 2	Tier 3
<ul style="list-style-type: none"> Office referrals Minor/Classroom referrals Attendance In School Suspension Out of School Suspension Restraint/Seclusion Equity (Disproportionate Discipline) Core Effectiveness Climate Surveys SESR Tier 1 Fidelity (PIC, BoQ) 	<ul style="list-style-type: none"> Weekly progress monitoring (groups & individual student) Intervention-specific monitoring Comprehensive summary Tier 2 Fidelity (TFI) Comparison across Tier 1 data 	<ul style="list-style-type: none"> Daily direct observation data (frequency, duration, etc.) Antecedent, Behavior, Consequence observations Individual student reports School-level progress summaries by student and intervention Tier 3 Fidelity (TFI)

19

Subscale: Tier 3 Systems
Tier 3 is defined as intensive, individualized intervention provided to students who exhibit behavior errors, as evidenced by data.

Current Status	Feature	Priority for Improvement			
In Place	Partially in Place	Not in Place	High	Med	Low
	1. Tier 3 Systems Planning Team A Tier 3 team with an administrative and a member with social emotional behavioral expertise meets regularly and shares updates with staff.				
	2. Team Protocols The Tier 3 team has developed a process for regularly meeting and communicating with staff (e.g., process for gathering staff input, questions, and/or concerns for meeting agendas).				
	3. Student Identification The Tier 3 team uses multiple sources of data to identify students who require intensive, individualized social emotional behavioral supports.				
	4. Request for Assistance A Tier 3 team uses a formal process available to all staff, families, and students requesting additional intensive, individualized social emotional behavioral support.				
	5. Options for Tier 3 Implementation There is a formal problem-solving process for developing function-based supports to address the social emotional behavior needs of individual students.				
	6. Tier 3 Critical Features Behavior support plans include or consider all strategies for prevention, teaching, and responding to behavior based on function, and all safety plans.				
	7. Access to Tier 1 and Tier 2 Supports Students participating in Tier 3 interventions also receive or have access to Tier 1 and Tier 2 targeted supports.				
	8. Stakeholder Engagement Staff, families and students are engaged in planning, implementing, and evaluating individualized behavior support plans.				
	9. Professional Development Training on function of behavior and implementing function-based individualized supports is available to staff at least annually.				
	10. Generalization and Maintenance Individualized function-based behavior support plans include processes to generalize and maintain expected behavior.				
	11. Student Progress Monitoring Each student's individual support team has established a formal process for monitoring the progress of students on Tier 3 behavior support plans.				
	12. Level of Use Our Tier 3 team routinely shares with staff the proportion of students participating in Tier 3.				
	13. Fidelity A formal process exists for monitoring staff implementation of Tier 3 behavior support plans and routinely sharing fidelity data.				
	14. Annual Evaluation The Tier 3 team shares with staff and stakeholders a summary of priority data reflecting the effectiveness of Tier 3 practices including data for year comparisons of success data (e.g., students participating, students graduating, students in need of additional support), in a usable format.				

20

Tier 3 System -

What we know from our work with districts

Most Districts DO NOT have...

- A **Tier 3 leadership team**
- Job-embedded coaching** to support Tier 3 implementation
- An **effective data system**
 - Track students receiving Tier 3 support
 - Monitor student progress
 - Monitor intervention effectiveness
 - Easy & efficient graphing of progress for teachers & families

Most Districts Employ...

- Traditional methods** to train on FBAs/BIPs (ppts, forms)
- Inconsistent process** between general & special education
- Vaguely defined** procedures to identify students needing Tier 3 supports
- Limited procedures** to measure...
 - Fidelity of FBA/BIP process
 - Intervention implementation

21

MARSHALL

FBAs and BIPs

What we know from our work with districts

- No link between interventions & hypothesis
- Vague description of interventions
- No replacement behavior
- 'Stock' list of possible rewards & consequences
- Over-reliance on consequential interventions
- Missing follow-up plans
- No plan for measuring fidelity
- Teams often lacked teacher or significant adult(s)
- No baseline data
- Target behavior missing or inadequately defined
- Minimal detail on setting events & antecedents
- No consequences (i.e., response of others following problem behavior)
- Weak link between hypothesis & FBA components
- Hypothesis missing, incomplete or inadequate

PBIS

22

MARSHALL

Tier 3 System - District Challenges

Absence of clear guidelines for developing a results-driven T3 system that is practical and efficient for school application.

Minimal ongoing district supports to ensure implementation and sustainability of evidence-based processes.

Shortage of trained personnel who can implement T3 practices with fidelity

Tier 3 system change may take 5+ years

**Are any of these challenges for your district?
If so, which one(s)?**

24

School-Level Systems

Team meets regularly and includes members with knowledge and authority to support tier 3 students

Clear process for **identifying student's level of supports** for both general and special education

Has capacity to **support students across a continuum** from brief assessment to wraparound support

Plans for initial **training** with staff as well as provides on-going **coaching** to ensure fidelity

Ongoing **evaluation** of outcome and fidelity data is used to improve the school's system of support

Collaborates with stakeholders related to the school-level tier 3 process

BASSELIE (PBIS) Tiered Fidelity Inventory (TFI) - Version 2.1 Targeted Features

School Name: _____ County: _____
 Coach (if applicable): _____ Team Leader: _____ Date: _____

Be completed with your team.
 Based on other versions and available data, need the TFI scoring guide and complete responses on point sheets for each item. Items are scored 0-4 (0 = not implemented, 1 = partially implemented, 2 = mostly implemented, 3 = mostly implemented, 4 = fully implemented).
 When the activity is complete, your team can use this information to prepare plans for problem solving and implementation.

Item	0	1	2	3	4
1.1 Data System: Aggregated data (overall school level) Tier 3 data are summarized and reported to staff at least monthly on the fidelity of support plan implementation, and the impact on student outcomes.					/1
1.2 Data-based Decision Making: Each student's individual support team inserts at least monthly for every frequency (if needed) and uses data to modify the support plan to improve fidelity of plan implementation and impact on quality of life, academic, and behavior outcomes.					/1
3.1 Level of Use: Team follows common practice to track proportion of students participating on Tier 3 supports.					/1

Scoring the PBIS Tiered Fidelity Inventory: 3.0-39 / 42 points possible _____ / 70 % of PBIS implementation

28

Feature	Possible Data Sources	Scoring Criteria
	Substrate Evaluation	
1.1 Data System: Aggregated data (overall school level) Tier 3 data are summarized and reported to staff at least monthly on the fidelity of support plan implementation, and the impact on student outcomes.	<ul style="list-style-type: none"> Reports to staff Staff meeting minutes Staff report 	<ul style="list-style-type: none"> 0 = No quantitative data 1 = Data are collected on outcome and/or fidelity but not reported monthly 2 = Data are collected on student outcomes AND fidelity and are reported to staff at least monthly for all plans
1.2 Data-based Decision Making: Each student's individual support team inserts at least monthly for every frequency (if needed) and uses data to modify the support plan to improve fidelity of plan implementation and impact on quality of life, academic, and behavior outcomes.	<ul style="list-style-type: none"> Three randomly selected Tier 3 student behavior support plans created in the last 12 months (see TFI Tier 3 Support Plan Worksheet) 	<ul style="list-style-type: none"> 0 = Student individual support team do not review plan or use data 1 = Each student's individual support team reviews plan, but fidelity and outcome data are not both used for decision making on all all teams review plans 2 = Each student's individual support team consistently considers data and reviews plan at least monthly using both fidelity and outcomes data for decision making
3.1 Level of Use: Team follows common practice to track proportion of students participating on Tier 3 supports.	<ul style="list-style-type: none"> Student progress data Tier 3 team meeting minutes 	<ul style="list-style-type: none"> 0 = School does not track proportion of students on Tier 3 plans 1 = Fewer than 1% of students use Tier 3 plans

31

3.1 Team Composition: Tier 3 leadership team (or combined Tier 2 and Tier 3 Team) includes the following roles: 1-2 Tier 3 systems coordinators (i.e., coaches), a school administrator, a representative group of educators (e.g., grade level or departmental representation, general and special education, certified and non-certified staff), members from marginalized groups, relevant community partners (e.g., mental health providers), and individuals who actively provide expertise in the following areas:

- applied behavior support
- mental health and trauma
- academic instruction
- coaching
- equity
- physical health and wellness (e.g., nurse, health teacher)
- data systems and information regarding system and student academic and SED strengths and needs
- operations of the school across grade levels and programs

0	1	2	3	4
Team does not exist or does not include a coordinator, school administrator, or individuals with applied behavioral expertise.	Team exists, but does not include all identified roles, or participation of these members is below 80%.	Team with all roles exists and is actively engaged with participation of all roles at or above 80%.	Team with all roles exists, is actively engaged with participation of all roles at or above 80%, and either a written process exists for selecting, orienting, recruiting, and retaining team members or Tier 3 leadership team includes members from the group that is most exposed to disparate outcomes in your school	Team with all roles exists, is actively engaged with participation of all roles at or above 80%, and both a written process exists for selecting, orienting, recruiting, and retaining team members and Tier 3 leadership team includes members from the group that is most exposed to disparate outcomes in your school

32

3.2 Team Operating Procedures

3.2 Team Operating Procedures: Tier 3 leadership team has (a) regular meeting format/agenda that prompts the regular review of Tier 3 practices, systems, and data, (b) established and regularly used team norms, (c) defined meeting roles (e.g., timekeeper, facilitator, recorder), (d) regular (e.g., quarterly) two-way data sharing and communication with Tier 1 and Tier 2 teams to inform decision making, and (e) a current action plan, (f) procedure for evaluating fidelity of team operating procedures (e.g., Team Initiated Problem Solving [TIPS] Fidelity Checklist) at least twice annually, and (g) a formal process to monitor the impact of team norms and procedures on ensuring all team members are able to participate as equal partners.

0	1	2	3	4
Team does not meet monthly, use regular meeting format/agenda, minutes, defined roles, or a current action plan.	Team meets at least monthly and has at least three but not all six of the procedures listed a-f.	Team meets at least monthly and has at least four but not all six of the procedures listed a-f.	Team meets at least monthly and has at least five but not all six of the procedures listed a-f, and either g or h.	Team meets at least monthly and has all eight of the procedures listed a-g.

Possible Data Sources:

 Team Initiated Problem Solving (TIPS) fidelity checklist items 1-9

33

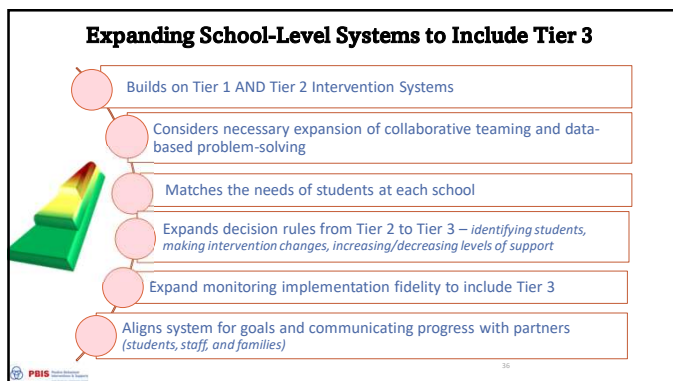

3.8 Level of Use				
<p>3.8 Level of Use: Tier 3 leadership team follows a written process to track the proportion of students participating in and experiencing success in Tier 3 supports, determining if access is appropriate (i.e., % of total student population supported by Tier 3 is reasonable given context) and equitable (i.e., disaggregated data demonstrate equitable representation in Tier 2 support by subgroup (e.g., race/ethnicity, IEP/504, language status, gender)), and disaggregated data are examined and shared with Tier 1 and Tier 2 teams to inform the distribution of tiered supports.</p>				
0	1	2	3	4
<p>Team does not have criteria for or track the number of students participating or experiencing success in Tier 3 interventions.</p>	<p>Team has defined criteria for counting a student as participating and experiencing success in Tier 3 and uses criteria to report the number and percentage of students participating and experiencing success in Tier 3 interventions overall to Tier 1 and 2 teams at least annually.</p>	<p>Team has defined criteria for counting a student as participating and experiencing success in Tier 3 and uses criteria to report the number and percentage of students participating and experiencing success in Tier 3 interventions overall and by subgroup to Tier 1 and 2 teams at least annually.</p>	<p>Team has defined criteria for counting a student as participating and experiencing success in Tier 3 and uses criteria to report the number and percentage of students participating and experiencing success in Tier 3 interventions overall and by subgroup and examines data to determine whether access is appropriate and equitable and shares data with Tier 1 and 2 teams at least quarterly.</p>	<p>Team has defined criteria for counting a student as participating and experiencing success in Tier 3 and uses criteria to report the number and percentage of students participating and experiencing success in Tier 3 interventions overall and by subgroup and examines data to determine whether access is appropriate and equitable and shares data with Tier 1 and 2 teams at least quarterly.</p>
<p>Possible Data Sources: Tier 3 enrollment data</p>				

34

Supporting School-Level Systems Teams to Build Tier 3 Capacity

- Objective is to expand existing teaming structures to support the roles and responsibilities of the Tier 3 school-level system.
- Build content knowledge and skills along the continuum of Tier 3 through Brief FBA/BIP to support individual-level systems.

35

36

School-Level Team Responsibilities With Tier 3 Enhancements

1. Identify students
2. Match student needs to interventions aligned with **Tier 1 and 2**
3. Monitor and coordinate intervention supports
4. Implement data-based problem-solving **including individualized assessment**
5. Communicate with all stakeholders: caregivers/families, students, staff. (**Individualized Cases**)
6. Monitor effectiveness of Tier 2 with Tier 3
 - a. Number of students receiving support (disaggregated for subgroups)
 - b. Implementation fidelity
 - c. Student progress across interventions
 - d. Effectiveness of Tier 2 and 3 Intervention supports as a whole
7. Adhere to legal/ethical guidelines
8. Identify staff professional development needs (**Tier 2 and 3**)

37

Individual-Level Systems

Team membership
reflects the needs of the student

Assessment is function-based but can vary in intensity

Behavior intervention plans are linked to the assessment

Staff leading teams have **trained** expertise that is **coached** to other members

Collects and **evaluates** relevant data to make decisions regarding student success

38

Tier 3 System

- Full FACTS
- Individualized Skill Building
 - Executive Functioning
 - Academic Support
 - Regulation Monitoring
- FBA/BIP
- Fidelity and outcome measures
- SAT Meetings
- Wrap Around Supports
- Testing/IEP Development

Tier 3 Supports and FBA/BIP Trainings

1. **Capacity Building**
 - Building level learning approach to Tier 3 Supports
 - All stakeholders are represented
 - Data-based
 - Progress monitored with emphasis on outcome data
 - Built in fidelity checks for interventions
2. **Competing Behavior Pathways and BIP Development**
 - The Competing Behavior Pathway is a data-driven problem solving approach to help teach students healthier ways to meet and service the function of their behaviors.
 - The Competing Behavior Pathway directly influences the actions that are written in the BIP.
3. **Other Features**
 - The goal is to teach behaviors.
 - Our strategy emphasizes a continuum of supports.
 - Person focused: centered
 - Linked to the broader PBIS/MTSS framework
4. **QR Code**

Scan the QR code or visit www.marshallschools.net/tier3 request for assistance to get started with your Behavior Support Specialist!

39

TEAMING

**Tier 3 team member suggestions:
(This could be your SAT team)**

Individuals who will help in the development of FBA/BIP plans:

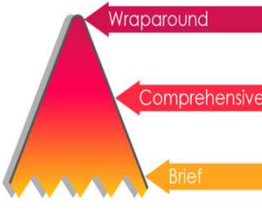

- ❖ Administrator
- ❖ Lead facilitator
- ❖ Referring Teacher
- ❖ Special Education Teacher
- ❖ Counselor
- ❖ School Psychologist
- ❖ Paraprofessionals (one-on-one aid)
- ❖ Parent

40

Continuum of Tier 3 Features across Levels

	Level 1 (efficient)	Level 2 (comprehensive)	Level 3 (wrap around)
Teaming	<ul style="list-style-type: none"> Team is small in size May only consist of a school-based consultant and teacher Problem-solving process is rapid Family input is sought Students is included when appropriate 	<ul style="list-style-type: none"> Team size expands to include multiple people within the school, the family and the student Team roles and responsibilities defined Common process established 	<ul style="list-style-type: none"> Team size expands to include people from all areas of student's life who are critical to ensuring student is successful Outside agencies and other supports are involved Problem-solving process is used as: <ul style="list-style-type: none"> Assessment Includes person-centered planning models to develop a vision and targeted goals that lead to an integral system of supports for the student
FBA	<ul style="list-style-type: none"> Gathering of FBA information primarily indirect methods (e.g., within structured meeting) with a hypothesis developed 	<ul style="list-style-type: none"> Both indirect and direct methods of gathering FBA data used 	<ul style="list-style-type: none"> In addition to the FBA, other data to be collected include: <ul style="list-style-type: none"> Strength needs assessments Documentation reflecting roles of student and family Personal, family, and community resources Other assessment information to identify additional areas of need or conditions that inform intervention (e.g., medical exams)
BIP	<ul style="list-style-type: none"> Plan developed within the FBA meeting Primary intervention focuses on teaching and reinforcement strategies suggested by the hypothesis Plan addresses: <ul style="list-style-type: none"> Individual/developmental factors Both external triggers and internal factors Failure of the plan 	<ul style="list-style-type: none"> Multiple component plan developed that fits all the hypotheses Failure plan developed if needed 	<ul style="list-style-type: none"> Full range of intervention options considered Action plan that addresses goals developed from plan
Program Review/evaluation	<ul style="list-style-type: none"> Plan for collecting student outcome data Plan for collecting fidelity of implementation measurements Plan for data analysis and communication Plan for data review with team Plan for data use (e.g., 3 weeks) to review response to intervention Decision-making structure established for determining next steps based on response to intervention 	<ul style="list-style-type: none"> In addition to fidelity and student outcome data, social validity, and public benefits Consideration of multiple agencies personnel including consistent follow-up to determine progress or action plan for meeting goals derived from vision

41

Example of Levels of Tier 3 Processes Related to FBAs

- **Brief FBA**
 - FBA/BIP developed in one meeting (~60 minutes)
 - Best for high frequency/low intensity behaviors
 - Noncompliance, minor disruptions
 - ERASE (Explain, Reason, Appropriate, Support, Evaluate)
- **Comprehensive FBA**
 - More intensive FBA/BIP process
 - Multiple meetings (2-4) or one long meeting (>2 hours)
 - Best for chronic, durable, intense behaviors
 - Prevent-Teach-Reinforce
- **Wrap-Around**
 - Long-standing, extremely intense behaviors, mental health concerns, complex life events
 - Multiple services, agencies or institutions
 - Person-Centered-Planning

42

FBA/BIP Assessment Challenges for Schools

Minimal guidance related to: Critical components that should be included in an FBA/BIP. Limited training/background of individual facilitating FBA/BIPs.

Use of "clinical" language, terms, and processes that are not feasible for implementation in school settings.

Lack of training in Applied Behavior Analysis/Function Based Problem Solving principles underlying FBA/BIP, or training that is so technical that it is difficult for school practitioners to apply.

43

Why do we conduct FBAs?

- Reduce maladaptive behaviors by increasing positive behaviors.
- Effective in general and special education settings.
- Often required by law for students with IEPs that are facing placement change and/or have behavior goals in their IEPs.
- Aligned with **WV Policy 4373** requirements to problem solve around behaviors instead of solely providing consequences Aligned with WV
- **WV Policy 2419** discipline process for students with disabilities under the IDEA (Policy 4373 Chapter 2, Section 2)
- Research indicates that **an effective behavior intervention plan is tied to function.**
<http://www.pbis.org/research/tier3supports>

44

Identification Process

From Tier 2, you have multiple sources of data.

- No Response Intervention Data (chronic behavior, intense behaviors)
- FACTS
- Academic Progress
- Screening Tools
- Attendance

You have a written plan on how to get students into Tier 3:

- Universal Screeners
- Data Decision Rules
- Teacher nomination system

45

Functional Assessment Checklist for Teachers & Staff

- Sometimes our data tells us the function
- Sometimes our data shows us multiple possibilities
- Sometimes the function of behavior is unclear
- Sometimes there is more than one function to address

46

The Competing Behavior Pathway

What it is

How to use it

When to use it

47

Functional Assessment Checklist for Teachers & Staff

Student Name: _____ I.D.#: _____ Date Completed: _____

(1) Student Strengths and Preferences for Reinforcement:
(Consider interests and hobbies in addition to strengths)

(3) Setting Event:
(Contextual event which increases the probability that the behavior will occur)

(4) Maintaining Consequence:
(What happens in the environment immediately following the problem behavior)

(6) Desired Behavior:
(Describe in concrete/observable terms what the student should do during what is typically expected of some age/grade)

(7) Reinforcing Consequence(s) for Desired Behavior:
(What happens in the environment immediately following the desired behavior)

(9) Replacement/Alternative Acceptable Behavior:
(What can we teach the student to do instead of what he/she is currently doing)

Behavioral Intervention Plan Required Yes No
Safety Plan Required Yes No

PRA/ISP Facilitator: _____ Team Members: _____

(2) Problem Behavior or Behavior Date:
(Describe in concrete/observable terms, location, frequency, duration, intensity and/or timing across settings, people and times of day)

(5) Trigger/Antecedent:
(What happens immediately prior to the problem behavior)

(8) Function:
(Why the student engages in the behavior that impacts learning; what is the "payoff" for the student?)

48

Behavior Intervention Plan Identify Behavior Support Strategies

Record Only, Not for Data Entry (BIP)

Student name: _____ Date: _____
 Hypothesis statement: _____

Setting Event Strategies	Antecedent Strategies	Teaching Strategies	Consequence Strategies
Consider strategies to address or minimize identified setting events	Consider strategies to prevent/modify identified "triggers" (present problem behavior)	Consider strategies for teaching the replacement/alternative behavior	Consider strategies for reinforcing the use of the replacement behavior
	Consider strategies for preventing for the replacement/alternative behavior	Consider strategies for teaching the desired behavior	Consider strategies for responding to the problem behavior
			Consider including a Safety Plan if needed

49

FBA and BIP Technical Adequacy Evaluation Tool (TATE)

District/State: _____ Evaluator: _____ Date of Review: _____ IRR Yes No IRR Score: _____
 ID: _____ Date of FBA: _____ Date of BIP: _____

Directions: Score each item using the Product Evaluation Scoring Guide.

Component	Item	Scoring Guide	Score
Part I: FUNCTIONAL BEHAVIOR ASSESSMENT Data Gathering and Hypothesis Development	1. Input is collected from multiple people/sources to complete the functional behavior assessment. Check all that apply: <input type="checkbox"/> Student interview <input type="checkbox"/> Parent interview <input type="checkbox"/> Teacher interview <input type="checkbox"/> Rating Scales <input type="checkbox"/> Direct Observations <input type="checkbox"/> Record Review <input type="checkbox"/> Efficient FBA (team meeting, ERASE, etc.) <input type="checkbox"/> Other _____	0 = unable to determine 1 = 1 source/person or list of signatures with no detail 2 = two or more sources with supporting details	
	2. Problem behaviors are identified and operationally defined. (Clearly observable and measurable). If more than one behavior is identified, it is clear which behaviors will be the focus of the FBA. List problem behavior(s): _____	0 = no problem behavior identified. 1 = behaviors are identified but definitions are ambiguous or subjective 2 = ALL identified behaviors are operationally defined.	
	3. Baseline data on the problem behaviors are collected and detailed or summarized. The data are in addition to office discipline referrals (ODR), in-school suspension (ISS), and/or out of school suspension (OSS) data. <input type="checkbox"/> Target behavior <input type="checkbox"/> Method <input type="checkbox"/> Time Frame <input type="checkbox"/> Analysis	0 = unable to determine 1 = data collected, but omits at least one of the essential details 2 = data collected AND includes all 4 essential details	
	4. Setting events (i.e., slow triggers; antecedent events that provide the context or "set the stage" for a higher likelihood of problem behavior) are considered, identified if present, and the contingency to the problem behavior is described. List setting events (slow triggers): Distal event: _____ Environmental, social, or physiological events: _____	0 = unable to determine, OR no indication setting events were considered 1 = identified, no contingency described, OR clear indication no setting events exist 2 = identified, AND contingency described, OR clear indication no setting events exist	
	5. Antecedent events (immediate triggers) that precede and predict the occurrence of problem behavior are identified and specified. List antecedents (triggers): _____	0 = none, OR not articulated 1 = identified, lacks detail 2 = identified AND detailed

Wrap Around Supports

- ❖ Wraparound differs from many service delivery strategies, in that it provides a comprehensive, holistic, youth and family-driven way of responding when children or youth experience serious mental health or behavioral challenges. Wraparound puts the child or youth and family at the center of the process to develop a support plan.
- ❖ The student and their family members work with a Wraparound facilitator to build their Wraparound team, which can include the family's friends and people from the wider community, as well as providers of services and supports.
- ❖ There is now strong evidence that, when Wraparound is done well (i.e., with "fidelity"), young people with complex needs are more likely to be able to stay in their homes and communities, or, should a crisis occur, to be in out-of-home placements only for short periods of time.

51

Wraparound Principles

1. Family voice and choice
2. Team Based
3. Natural Supports
4. Collaboration
5. Community based
6. Culturally Competent
7. Individualized
8. Strengths-based
9. Unconditional
10. Outcome based

- ❖ All these principles are consistent with a PBIS approach and can result in a seamless connection between PBIS practices at Tier 3, that include Functional Behavior Assessments and Behavior Intervention Plans, and wraparound supports.
- ❖ **Four phases of effort:**
 - ❖ 1. Engagement and team preparation
 - ❖ Initial plan development
 - ❖ Implementation
 - ❖ Transition.

Bruns and Walker (2008)

52

Wraparound

What it IS

- An ongoing family/person-centered planning process used by”
 - A team of people
 - Who come together
 - Around family needs/strengths
 - To create a unique plan of interventions & supports
 - Based on a team

What it is NOT

- A set of services; mentoring, therapy, tutoring
- An IEP meeting
- A one- or two-time meeting made up of professionals who decide what a youth/family needs
- Any one individual who connects with the family or youth
- Only for families and youths we judge as workable or likeable
- The presence of flexible funds

53

Midwest PBIS Network

Wraparound Integrity Tool July 2017

Directions: Complete according to progress with the wraparound team over three per quarter and ending a state of:

1) In Place	Perceived to be 95-100% in place
2) Mostly In Place	Perceived to be 75-90% in place
3) Somewhat In Place	Perceived to be 50-70% in place
4) Minimally In Place	Perceived to be 25-40% in place
5) Not in Place	Perceived to be 0-20% in place
6) NA	Not applicable

STUDENT							
BASELINE							
FACILITATOR							
DATE:	QUARTER:	1	2	3	4	BASELINE	OVERALLITY

PLEASE INDICATE ALL PREVIOUS SCHOOL BEHAVIOR INTERVENTION RELATED MEETINGS ATTENDED THAT REFLECT THE BASELINE DATA:

IEP Meeting	Suspension/Medication/Determination Meeting
Intermittent Planning Meeting	Parent/teacher conference
Not baseline assessment	Other (Please define):

PHASE I: ENGAGEMENT

ITEM	5	4	3	2	1	NA
1. Met with family to gather their perspective and position						
2. Met with key team members to gather various perspectives						

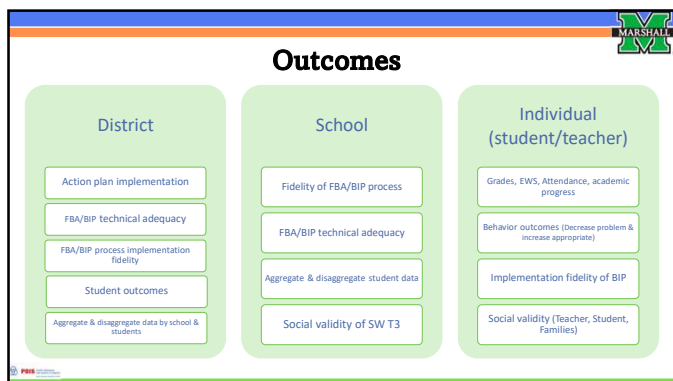

Midwest PBIS Network

PHASE II: INITIAL PLAN DEVELOPMENT

ITEM	5	4	3	2	1	NA
7. Available data about strengths/needs documented and shared						
8. One or two additional team meetings have taken place						
9. Data is collected from team members on an ongoing basis						
10. Data found decision making is integrated into the team process						
11. Strengths/phenomena/community were documented and supported at meetings						
12. Strengths/POC were documented and reinforced at meetings						
13. Facilitator openly consumes an oral or visual concerns						
14. Reflected needs that reflect a consensus of team member concerns						
15. Chose a first needs to focus action planning on						
16. Assigned special priority to family concerns						
17. 100% of chosen methods matched to child and family strengths						
18. Strengths/needs/strategy consistently operational in implementing family, teacher, child						
19. Development based on formal problem behavior support plans to address problem behaviors related to priority needs						
20. Needs/strategy plan consider their own/previous behaviors to monitor teaching, practice, reinforcement strategies/needs						
21. Community resources are being accessed as needed to meet needs identified by family
